

# Personality Assessment Training

**Have you ever wondered why you can't work with certain people?**

**Why your kids never get along?**

**Why you think the way you do?**

*Maybe it's all a matter of personality...*

## **Overview of Key Colors**

Key Colors is an interactive personality assessment workshop that uses color as a metaphor to teach people more about themselves and others. We use material developed by True Colors™ which leverages the simple concept of colors to translate complicated personality and learning theory into practical information we can all understand and use. This workshop is well-suited for co-workers, supervisors, managers and anyone involved in leading and supporting a diverse people group.

**Some of the benefits participants can expect from a Key Colors workshop:**

-  Improved knowledge of strengths, communication style and preferences .
-  Strategies to develop deeper understanding of others as well as effective ways to minimize miscommunications .
-  Increased esteem for self and others.
